

**DXC Services for
Oracle® ERP Cloud**

Extract maximum value from Oracle®'s ERP Cloud. Faster.

Benefits:

- Boost productivity, lower costs and reduce risk across your business.
- Improve control and promote organisation-wide best practice.
- Free up resources for innovation and market development.
- Easily integrate cost-effective SaaS tools and Cloud technologies.
- Continually improve your ERP capabilities, without expensive upgrades.

Agility. More than anything else, that's what organisations across the globe need today. The agility to embrace new technologies. To adapt business models. To outmanoeuvre local and international competitors. To exceed customers' expectations, not budgets.

This is where Oracle®'s ERP Cloud solution excels, with more ERP functionality delivering more agility more cost effectively. It's why thousands of organisations worldwide - from start-ups to multinationals - are modernising their business operations with Oracle's ERP Cloud.

It's also where DXC Technology's proven ERP Cloud implementation experience delivers a tangible advantage - we enable you to unlock and harness every last ounce of Oracle's ERP capability and potential, faster.

What is Oracle ERP Cloud?

Oracle ERP Cloud offers a complete, innovative, and proven solution for organisations of all sizes that want to thrive in the digital economy.

Their pre-integrated ERP Cloud platform provides critical, end-to-end ERP functions that can be extended to everything, from human capital, supply chain and customer relationship management, to sales, marketing, business intelligence and enterprise performance management.

Modular.

You only pay for what you use.

Secure.

Enterprise-grade security and compliance.

Customisable.

For a more personalised experience.

Data-driven.

Reliable intelligence and insights.

Connected.

Linking individuals, resources and functions.

Multichannel.

Mobile, social and optical functionality.

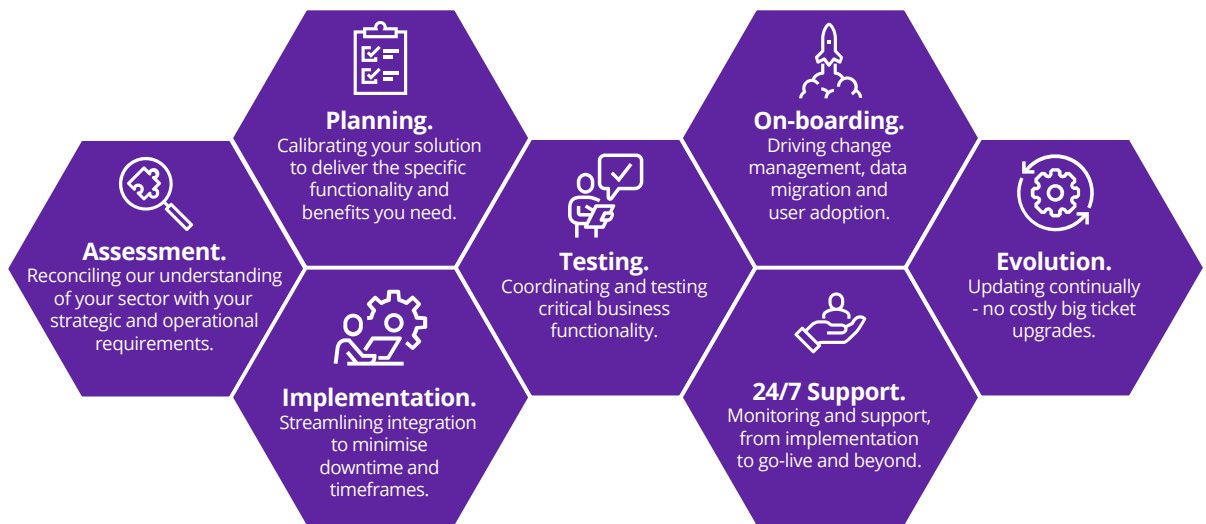

Innovative.

Streamlined deployment and user experiences.

Extract maximum value with DXC

Our ERP specialists will apply their expertise and working knowledge of your industry at every stage of the implementation and integration process to ensure you extract maximum value and minimise the cost of your ERP Cloud solution.

Our Cloud First approach

At DXC, we have a clearly defined Cloud First strategy focusing on the entire lifecycle of Oracle's Cloud offering, from assessments, to implementations, to continual improvement.

- **Cloud First Assessment.** Our specialists assess a move to the Cloud for every client, considering design, change management, enterprise architecture and ROI.
- **Cloud First Offerings.** We draw on our experience of ERP deployments worldwide, across multiple industries, to tailor our prebuilt Cloud solutions so they deliver the outcomes each client expects in a measured, efficient and timely manner.
- **Cloud First Support Services.** Our managed service model for the Cloud, which focuses on clients' business requirements post go-live, encompasses updates, road maps, user training, business process-friendly patching and ROI.
- **Cloud First Partners.** We have aligned our focus on Cloud through our partners, with each alliance bringing in a specific capability as part of our execution. Examples include embedded training, SaaS pay roll with prebuilt integrations, automated testing, automating migration to Cloud and more.

Managed Services

Our highly trained and experienced Managed Services team provides a multi-tiered suite of scalable technology and infrastructure management and support solutions. These solutions are tailored to meet each client's requirements, thereby minimising costs and maximising uptime. Our support services include Cloud First Support Services, specifically designed for businesses that have migrated their Oracle business applications to the Cloud. Cloud First Support Services provide ongoing lifecycle management of Oracle Cloud Applications including on-demand expertise, ad hoc reporting, training and 24/7 monitoring and support to help you realise the benefits of your Cloud investment and make full use of system functionality.

Licensing & Software Asset Management

Our Strategic Licence Services and Software Asset Management as a Service (SAMaaS) enable you to confidently navigate intricate licensing protocols and ensure contractual compliance, minimise licensing costs, mitigate audit risks and set up a robust audit defence strategy.
